# FINNEGAN HARDY

## TRANSDISCIPLINARY DESIGNER & ENGINEER

With degrees in both design & engineering, I am committed to designs that are grounded in a deep technical understanding of how to bring impactful concepts into reality. I combine the **what** and **how** of engineering with the **why** and **for whom** of design to create work that responds to its context rather than imposing upon it.

## Education

### (M.A.) PRODUCT DESIGN & COMPUTATION

University of Arts (UdK) Berlin
